### **What is a Journey and what is your benefit?**

Very simple: Journeys are impulses for one of the four fields. You receive solutions to a topic that concerns you professionally or personally. With "Released - simply effective" we offer you impulses, coaching, knowledge and consulting over a certain period of time. You tell us what you need and we design the Journey. That's all you need to move forward, to shape the future in the present.

The Journeys fit to you if you are looking for

- an answer to specific questions.
- need a short and valuable impulse to solve a problem.
- are aiming for an immediately effective transformation.
- want inspiration to take a step forward in your professional or private life.

Our Journeys are designed for individuals and teams. Your request is our solution assignment.
